IEEE INSPEC SPI Other

Is this a "Fast & Focused" Search Request? (Circle One) YES NO

A "Fast & Focused" Search is completed in 2-3 hours (maximum). The search must be on a very specific topic and meet certain criteria. The criteria are posted in EIC3600 and on the EIC3600 NPL Web Page at <http://ptoweb/patents/stic/stic-tc3600.htm>.

What is the topic, novelty, motivation, utility, or other specific details defining the desired focus of this search? Please include the concepts, synonyms, keywords, acronyms, definitions, strategies, and anything else that helps to describe the topic. Please attach a copy of the abstract, background, brief summary, pertinent claims and any citations of relevant art you have found.

System for creating electronic prescriptions comprising:

A computer screen for entering patient-identifying data, drug identification data, drug quantity data, and information about the drug according to formulary guidelines

A library of prescribable drugs accessible by the screen to display multiple drugs that are available

Drug formulary information identifying multiple drugs that fit a patient's drug formulary preferences to allow selection of a drug that is recommended by the patient's benefit plan, where the prescriber may be shown the patient's drug formulary preference.

A system comprising

A computer screen for entering patient-identifying data, drug identification data, drug quantity data, and information about the patient condition, where the prescription includes the patient condition data

A library of prescribable drugs where the drugs are associated with a patient condition

Prescription outputs screen to output a completed prescription

Where the completed prescription includes the patient condition and drug identification and quantity data

The inventors are Edelson and Mayaud so I cannot apply art from these inventors. They are some of the original people involved with these types of systems
